

Research associate for DRDO funded Project

Department of Mechanical & Aerospace Engineering
Karunya Institute Technology and Sciences (Deemed to be University),
Coimbatore-641114

Applications are invited for the position of Research Associate for the CVRDE, DRDO funded project entitled as “Study on ballistic performance of armour system using Aluminium Metal Matrix composite foam” for a period of two years.

Post : Research Associate

Eligibility : First Class in M. Tech. in any of the Mechanical Engineering specializations

Fellowship : Rs. 25,000 /- per month

Duration : 02 years

Project Keywords : Ballistic performance, composites, Metallic foam

Essential qualifications: Experience in metallic foam fabrication, material characterization- both mechanical and metallurgical, stir-casting, knowledge in Ansys and/or Radioss.

Desirable qualification: Exposure to ballistic property testing, powder metallurgy fabrication of steel.

Interested and eligible candidates may mail their CV to (christy@karunya.edu) the Principal Investigator on or before 27th March 2018. Only eligible candidates will be contacted through Email for further processing of their applications.
