INSTITUTE OF TECHNOLOGY AND SCIENCES
Declared as Deemed-to-be University under sec.3 of UGC Act, 1966
Karunya Nagar, Coimbatore 641 114, Tamil Nadu, India.
ABOUT THE INSTITUTE

Karunya Institute of Technology and Sciences (Deemed to be University) was founded with the noble vision to raise professionals and leaders of high academic caliber and unblemished character, nurtured with a strong motivation and commitment to serve humanity. The Karunya Institute of Technology was started as a private self-financing engineering college on 4th October 1986. In 2004, the Institute was awarded the Deemed to be University status in recognition of its academic excellence by MHRD, Government of India under section 3 of the UGC Act, 1956. This Institution is NAAC accredited and ranked as 71 among private universities in NIRF Ranking 11 B.TechProgrammes and 13 M.Tech programs are being offered under the School of Engineering & Technology.

ABOUT THE DEPARTMENT

The Department of Civil Engineering has been in existence since the inception of Karunya Institute of Technology in 1986 and has grown into a full-fledged department with specializations in Structural Engineering, Geotechnical Engineering and Environmental & Water Resources Engineering. It has grown steadily with its parent institution and has turned out 30 batches of Civil Engineering Graduates. The B.Tech Programme is NBA Accredited. Many of our alumni hold prestigious positions in leading academic institutions, industry and government all over the world. Civil department has several funded projects to the tune of 3.52 crores. This department is also involved in many consultancy projects in the areas of Geotechnical, Structural and Environmental Engineering.

SCOPE OF THE CONFERENCE

India is making a rapid progress in terms of its infrastructure, and there have been many concerns raised by various sections on the environmental impacts. Eco-friendly infrastructure ensures that the construction technologies are in line with the local resources, thereby leaving a small footprint on the environment. This conference is aimed to identify the research potential, interdisciplinary techniques and knowledge sharing among the budding engineers and academicians. The papers will be published in the proceedings of the conference with ISBN number.
