3.2.2 - Number of Graduates in Health Professions

The mission of Karunya Institute of Technology and Sciences (KITS) has a strong emphasis on Health Care as one of its four major thrust areas in finding solutions to human problems through innovative scientific and technological interventions.

In the year 2021-2022, 281 students graduated in health related programs out of 1697 graduates from KITS. These graduates from the departments of Biomedical Engineering, Biotechnology and Food Processing Engineering are equipped with knowledge and skillsets required to serve as practitioners since these UG and PG programs offer a significant number of courses in health sciences and allied technologies.

As an outcome of the initiatives taken KITS has 100 research publications in Scopus indexed journals, 15 patents filed and published, 35 products mostly relevant to COVID mitigation, 55 projects funded by Central Government agencies such as DST and ICMR and the rest from Boston Children's Hospital, Harvard Medical School, USA for developing innovative assistive medical devices.
