

Online FDP - Faculty Speak Out!

<p>NAGEEN MUJEEB</p> <p>Glendale Academy International School, Hyderabad</p>  <p>Demonstrations were good and it took me to the key areas of microbiology. A wonderful gathering overall, especially the areas which was chosen by the faculty was quiet impressive. I really wanted to attend such events physically in future.</p>	<p>SULEKHA MATHEWS</p> <p>Clarence High School, Bengaluru</p>  <p>The topic of Tissue culture was relevant as I am teaching this topic in classes. I can motivate and encourage interested students to consider this field as a career choice. I found the program to be very well organized. The topics were relevant and explained with sufficient demonstrations. Each of the faculty was very clear in their presentation and had thorough subject knowledge.</p>
<p>NARAYANASAMY R</p> <p>TNPL MATRIC HR.SEC. SCHOOL , Karur</p>  <p>I gained more information on DNA isolation methods and animal tissue culture from the faculty members. It really gave innovative information. Sterilization and media preparation was very useful for my students. It's innovative and very informative program for us. Your institute's lab projected through a virtual mode was superb. I would thank the Department of Biotechnology and all the Resource persons and your institution for given us a golden opportunity. Thank you to all</p>	<p>CAROLINE MOSES</p> <p>Stanes School, Coimbatore</p>  <p>The modules helped us to recall the basic knowledge about the different areas of biotechnology. In regard with teaching, these knowledge will help us to impart a wider range of the subjects to the students and help them educate about the different areas they can chose in future for higher studies . Practical knowledge were more than school level , yet they can be introduced as a part of research oriented projects to students.</p> <p>I really appreciate the efforts taken by the Dep. of Biotechnology of Karunya university to widen the subject range of school teachers. We are</p>

	<p>looking forward to get in touch with you for the betterment of our students in future. Unless mentors like you don't take initiative like this, students at school level may become stagnant at some areas of their education.</p>
<p>MAHAVEER S</p> <p>Chinmaya International Residential School, Coimbatore</p>  <p>The topic which has been chosen for the FDP was good. Good presentations and videos projected were very useful for us to show our children to make them understand better. We now got a resource team for the field visit / hands on experiment which will give them good exposure in school days itself.</p> <p>The whole team was so good in presenting their topics. It was so clear and all can understand it. So many things were a good recall of the topics which i studied a long back for me personally. It was well organized and hope in future too you plan more FDP which could benefit us well.</p>	<p>NEHA MISHRA</p> <p>Mount Litera Zee School , Goa</p>  <p>The FDP gave us new techniques as well as knowledge of new instruments The FDP gave us a variety of learning settings like this seminars, and a participatory approach to learning for students. There is an emphasis on the case method of teaching and learning the practical methods which would enable us to translate to the school students in a more effective manner. All the best Team Biotech! It was indeed a good FDP program.</p>
