Outpatient

**Description:**

1. The university provides health services with comprehensive service support for the entire academic community.
2. Support rendered other than academic community
  - a. Karunya hospital healthcare projects aim to make quality healthcare affordable to the poor, even in the remotest of communities.
  - b. It has been supporting the vulnerable with its healthcare and relief efforts
  - c. It supports children with HIV through nutritional supplements, scholarships, and counseling services.
  - d. Karunya hospital designs and implements projects relevant to the needs of people from all sections of society, irrespective of caste, creed, colour, gender, or religion. Each of the projects functions in its own unique ways to propel the journey towards holistic development, fuelled by indicators such as using education, health, environment, and livelihood. The projects are set both in the community as well as institutionalized settings. Primarily, we work with children, youth, women, men, families, persons needing physiological and psychological care, the differently-abled, senior citizens, and victims of natural disasters. Together, these individual projects are equipped with the power to transform entire communities.
  - e. Karunya hospital's mobile clinic reaches out to the remote tribal villages around Coimbatore with healthcare services even at the doorstep of the beneficiaries.
  - f. The Centre for Well-Being is a counseling, guidance support, and de-addiction center that improve psychological well-being and quality of life.
