[1] Setting and Infrastructure (SI)

[1.4] Campus Setting

Aerial View- (Karunya Institute of Technology and Sciences, Coimbatore, Tamil Nadu, India)

Description:

Karunya Institute of Technology and Sciences (KITS) is located in a rural area with a high rate of forest cover. KITS belongs to the Coimbatore district which is located in the southern part of the state of Tamil Nadu. This location is at the foothills of Western Ghats amidst the rural community in Coimbatore.

The campus occupies an extensive green landscape surrounded by hills, vegetation, and natural watercourses. Its rural setting provides a pollution-free environment that supports sustainable land use, biodiversity conservation, and ecological balance. The institution utilizes its natural terrain for effective water management, green cover enhancement, and soil conservation practices. This region is identified as one of the world's eight 'hottest hotspots' of biological diversity, as declared by UNESCO. The vast residential campus experiences a perfect monsoon system that provides an ideal ambience for living and learning.

The Coimbatore district covers a total area of 4,732 km² and has a population of 4,011,678, resulting in a population density of about 848 inhabitants per km². Due to this relatively low population density, the Karunya Institute of Technology and Sciences region is classified as a rural area, surrounded by the lush foothills of the Western Ghats. The peaceful, green surroundings provide an ideal environment for research, innovation, and holistic education, away from urban congestion.
