### [5] Transportation (TR)

#### [5.4] The total number of vehicles (cars and motorcycles) divided by total campus' population

No.	Vehicle	Total Number
1	Car managed by the university	14
2	Cars entering the university	122
3	Motorcycles entering the university	96
	<b>Total</b>	<b>232</b>

**The total number of vehicles (cars and motorcycles) divided by total campus' population =  $232 / 7700$  (Population) = 0.030**

#### Description:

Karunya Institute of Technology and Sciences (KITS) enforces a comprehensive policy to restrict private vehicles from entering the campus, and this regulation is strictly implemented. Faculty and staff members park their vehicles outside the main gate, maintaining a secure and orderly environment within the campus premises. For daily transportation, the university provides a campus shuttle service that efficiently serves both students and faculty. Given the expansive nature of the campus, the shuttle ensures convenient access to academic buildings, libraries, and other facilities, alleviating the challenge of commuting by foot. Beyond its role in transit, the shuttle ride enables spontaneous social interactions, fostering a sense of community through casual conversations and shared experiences. The courteous and accommodating drivers contribute to a safe and pleasant journey for all passengers. Overall, the campus shuttle is not only an essential means of transportation but also an integral part of campus life at KITS, supporting both mobility and community spirit.
