[3] Waste (WS)

[3.3] Total volume of paper and plastic produced last year

Karunya Institute of Technology and Sciences is dedicated to fostering a sustainable and eco-conscious campus environment. In pursuit of this vision, the university continually monitors and manages its resource utilization and waste generation. This document presents the total volume of paper and plastic produced within the campus as part of Karunya's efforts to identify opportunities for waste reduction, promote recycling initiatives, and support the goal of achieving a cleaner and greener campus for future generations.

Type of waste	Amount (ton)		
	Produced		reduced
	Last year	This Year	
Plastic	4.22	2.61	1.61
Paper	31.26	25.21	6.05
Total	35.48	27.82	7.66
